

PRESS RELEASE

SAUDI ARABIAN AMIAANTIT
SPONSORS THE 9TH TRAINING
COURSE OF OCCUPATIONAL
HEALTH IN MEDICAL PRACTICE

In cooperation between Saudi Arabian Amiantit Company and the occupational health division of the primary healthcare department in the General Directorate of Health Affairs Eastern Province, the 9th Training Course of Occupational Health in Medical Practice was organized on the 28 and 29 April, 2008. The course came in simultaneous with the 1st Gulf Week for Occupational Health and Safety and the World Day for Occupational Health and Safety, which is annually celebrated on the 28 April. The course was attended by a large group of doctors from hospitals and medical centers, who came to find the new developments in prevention and treatment techniques applied in Amiantit to avoid occupational hazards.

Dr. Solaiman Abdulaziz Al-Twajiri, the CEO of Amiantit announced that selecting Amiantit for the ninth year as an official sponsor of the Annual Training Course of Occupational Health in Medical Practice in cooperation with the Health Affairs Directorate in the Eastern Region comes in line with Amiantit's social responsibility programs. Dr. Al-Twajiri mentioned that Amiantit clinic, as an advanced medical center, was chosen since many years as a training and assessment center for the students of Science College in the Eastern Region. In addition, Amiantit launches effective social responsibility
